Commercial Unenclosed Vertical Platform Lift (VPL) From Bruno

When a couple of feet make all the difference in the world...up to a stage, a landing, a podium...Bruno's Unenclosed Commercial VPL is the affordable solution for complete public access.

Peace of Mind is not bought...it is given...through the skill, dedication, and vision of proud craftsmen who design and build products to increase the independence of people around the world.

Security is the watchword.

Durability is the standard.

Value is the promise.

Commercial Unenclosed VPL Safety Features

The entire bottom of the platform is spring sensitive, shutting the unit down if an obstruction is encountered.

Lighted Push Button Control Panel and Emergency Stop Switch with audio and visual signaling.

Optional - Top landing gate includes mechanical interlock released only with platform at the top landing.

Bruno offers added peace of mind with our battery powered Vertical Platform Lift.

Our battery powered VPL provides access in and out of your establishment even during a power outage.

Quality Craftsmanship

The Bruno name has always meant trust.

Our Vertical Platform Lift (VPL) extends that promise to another category of solutions “for your independence”.

For the consumer who insists upon performance and reliability, the Bruno VPL-3300B offers the perfect solution for your church, school or business.

Performance

With a rated weight capacity of 750 lb (340 kg), Bruno’s Vertical Platform Lift can handle virtually any power wheelchair or scooter and occupant. Its rugged dependability and powerful performance provide complete confidence.

Dimensions shown are for the standard platform size.

*optional platform sizes and configurations available.

Dimensions shown are for the model VPL-3353B

*For detailed specifications and dimensions go to www.bruno.com.

Commercial Unenclosed VPL Options

Optional keyed call/send controls offer additional security and ease of operation.

Stay dry with an optional Canopy! It can be retrofitted for previously installed units. (not available for 90° platform or 42" X 60" (1067 mm X 1524 mm straight through platform)

Optional Door or Gate Operator can be fitted to most doors and gates for power-assisted operation.

Optional ADA Emergency Communication Phone with battery backup
